

# AZZAR

FENCING AND STEEL

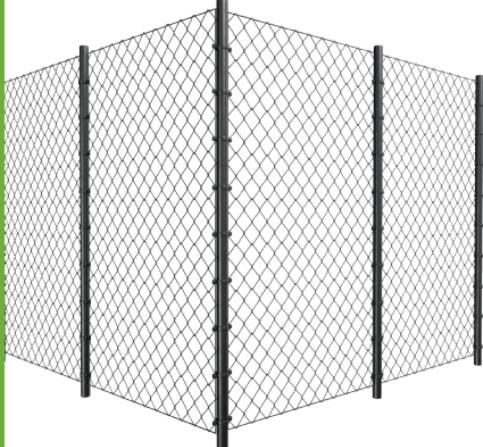

A chain-link fence is shown in the background, with a dark green triangular panel partially visible in the foreground. On this panel, the words 'COMPANY BROCHURE' are printed in a large, white, sans-serif font, oriented diagonally from the bottom-left towards the top-right.

## CORNER POSTS (76MM X 1.2M)

**1.8 m 2.4 m**

**2.1 m 2.4M o/h**

Our corner posts are made from high quality treated steel. Corner and brace assemblies are fundamental for installing fence posts and fencing that lasts.

## STANDARDS W/SECTION

STANDARDS F7

**1.8 m 2.4 m**

**2.1 m 2.4M o/h**

We stock the highest quality W sections, with fasteners that provide a sturdy fix. Fastened by short bolts, the W type palisade pales end flush against the horizon rails without flexibility.

## DIAMOND MESH (30m roll)

**1.2 m 1.5 m 1.8 m**

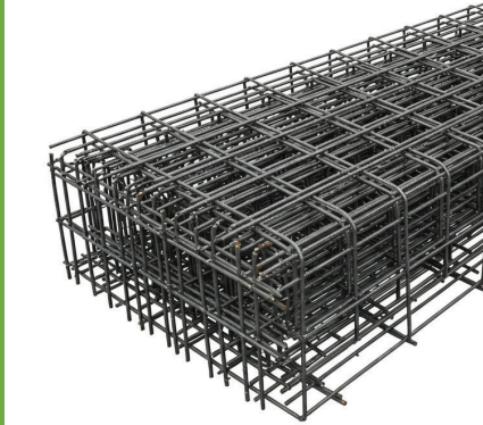

Diamond Mesh is a durable, versatile fencing solution ideal for homes, farms, gardens, and commercial properties. Available in 1.2 m, 1.5 m, and 1.8 m heights, each 30m roll is made from strong galvanized wire for long-lasting resistance to rust and weather.

## REINFORCING MESH S193

**1.2 m x 6m**

We stock high quality reinforcement steel and mesh. Reinforcement mesh, or steel fabric, is a premade lattice of rebar used to improve the lateral strength of concrete slabs, walls, and other constructions.

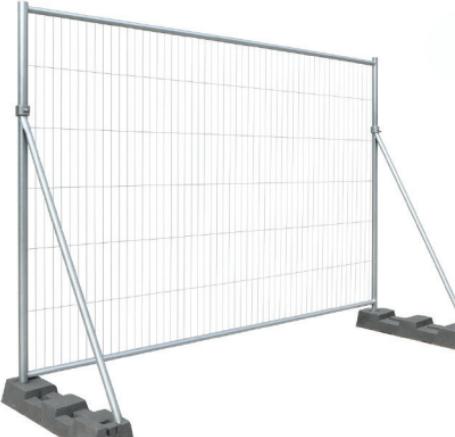

## FENCE SUPPORTS

We stock high-quality fence supporters suitable for any size fence.

**1.8 m 2.1 m 2.4 m**

Fencing is supported by strong posts that hold the panels or sections in place. This ensures your fence is sturdy, durable, and long-lasting.

## BARBED WIRE

Barbed wire is a type of steel fencing designed with sharp edges or points at intervals along the strands. It provides effective security and is commonly used for farms, ranches, and property boundaries.

## FIELD FENCE

**1.2 m x 6m**

Field Fence is a strong, flexible, high-tensile wire fence designed for livestock, farms, and large perimeters. Its graduated spacing and durable construction make it ideal for containing cattle, goats, sheep, and wildlife while maintaining long-term strength and stability.

## OUR CLIENTS

Our dedicated sales team has built strong, long-term partnerships with clients across diverse sectors, including international mining houses, leading construction companies, and other key industries. These trusted relationships are a testament to our reliability, quality service, and commitment to customer satisfaction.

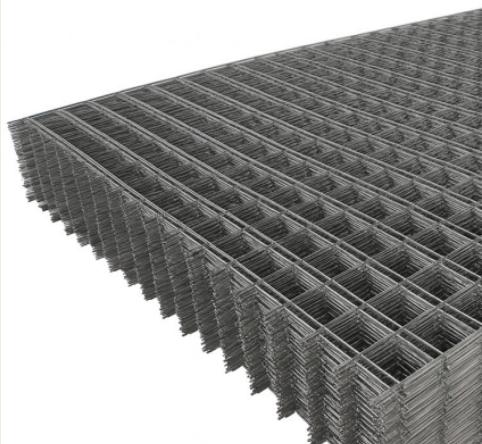

## DEFORMED BARS

Our deformed bars are manufactured to the highest quality standards, providing the strength and durability needed for reinforced concrete construction. We offer complete services including supply, cutting, bending, and fixing, tailored to meet the specific requirements of your project.

## CONSTRUCTION MESH

Available in various panel sizes and wire thicknesses, construction mesh is easy to install, cost-effective, and reduces construction time while improving the overall quality of reinforced concrete works. Its uniform spacing guarantees consistent strength distribution, making it a trusted solution in both residential and commercial projects.
